From every section of the county comes the information that the Sea Island cotton crop will be short at least one-third. The grower who holds his cotton this year ought to get even in the way of price for what he lacks in the size of his crop.

The Brooksville Argus opposes the proposed constitutional amendment providing for the levying of a tax of one mill for the maintenance of the higher educational institutions, on the ground that it desires a new constitution, not an amended one. As the editor of The Argus favors the proposed tax, we fail to see the pith of his argument.

The Tampa Tribune unwittingly caused Hon. Bob McNamee to again be placed in the limelight. The editor of a Spanish paper made aspersions upon the doughty Bob which he was unaware of until The Tribune printed a translation of the article, whereupon Col. Bob went to the Spaniard's office and gave him a thorough thrashing. The Spaniard should sue The Tribune for damages.

Champ Clark, Democratic leader in the next Congress, is well known in Gainesville, where he delivered a lecture last year at the Chautauqua, being the guest of his kinsman, Congressman Frank Clark, of this city. The two Clarks are great personal friends and the Congressman from the second district of Florida will lose none of his prestige in the House through the leadership of the gentleman from Missouri.

H. C. Sparkman, who has for some years past published The Wauchula Telegram, DeSoto county, has sold his subscription list to The Wauchula Advocate and will move his printing plant to Perry, Taylor county, where he has purchased the good will of The Perry Herald, which plant was recently destroyed by fire, and will move his plant to the latter place. The people of Taylor county can congratulate themselves upon Editor Pound being succeeded by such an able journalist as Mr. Sparkman.

The registration books of Alachua county which have been open at the court house since the first week in August will now be open two days in each week in each precinct in the county until October 6th. Every person who is entitled to register and who desires to vote in the November election, should register and pay his poll tax. Some are registered in the city who are not registered in the county, and we again notify such that they must be registered in the county in order to vote at the coming election.

As there are to be about thirty-five names on the ticket in the next election for Presidential Electors it would be well for the adherents of the different parties to study well the candidates of the party which they will support. The names of the Democratic candidates are H. P. Bailey, F. W. Butler, R. E. Davis, George C. Martin and Samuel Pasco. Study these names well and be prepared to mark an X opposite them on November 3rd if you desire to vote for William Jennings Bryan, the greatest living Democrat.

APPEALS AND TECHNICALITIES.

The American Bar Association which met at Seattle received from one of its special committees a report which asks for legislation that will prevent the courts of appeal from deciding either civil or criminal litigation brought before them on purely technical points. These cases, says the report, should be decided upon their merits. This committee was appointed by the association at its annual meeting last year to suggest remedies and draft proposed laws to prevent delay and unnecessary cost in litigation. The report called attention to the fact that the tendency of the courts in common law cases is to construe adherence to strict legal rules as the right of each party, and to reverse if there has been any infraction of these rules. "This makes the trial of a case a game," declared the committee, "in which the one wins who plays the most skillfully, the merits of the controversy having no part." The unrestricted right to a writ of error in criminal cases is characterized by the committee as a flagrant abuse in judicial procedure.

"These writs," the committee said, "are constantly sued out solely for delay. The punishment of notorious criminals thus is constantly being postponed in violation of every principle of justice. This is especially flagrant in the suing out of writs of error from the supreme court of the United States to review the decision of highest courts of criminal jurisdiction in the several States. We recommend that no writ of error returnable in criminal cases to the supreme court of the United States should be allowed unless justice as that court shall certify there is probable cause to believe that the defendant was unjustly convicted." The committee declares that the reforms in civil procedure which it recommends are not theoretical, but have been tried and adopted in England to the satisfaction of the bar and the benefit of litigants. "So far as reform in criminal procedure is concerned," says the report, "the grievance of which we complain has never existed in England, but the statutory provisions there are similar to those recommended by us."

WE'RE WILLING, BRO. JORDAN.

Senator McCreary, in his excellent paper, The Gainesville Sun, severely and righteously denounces the Legislature for refusing to perform their sworn constitutional duty to make a reapportionment of legislative representation, and says that there is no remedy "unless the power of the supreme court can be invoked." That is just what The Herald advised in 1906—that the attorney-general sue out a writ of mandamus from the supreme court commanding the Legislature to make the reapportionment as required by the constitution, and, on the neglect of the members to obey the command, that each and every one of them be arrested and committed to jail until they do make the reapportionment.—Punta Gorda Herald.

The editor of The Sun would gladly be one of the martyrs if thereby he would be instrumental in forcing the other members of the Legislature to do justice to Alachua and other counties which are entitled to additional representation. What say the members from some of the other counties which are being robbed of their just representation?

Let everyone help the cause with at least a dollar. You will not miss the amount, and will "have your name written there" as doing what you could to wrest the government from the plutocrats. This is a people's fight, and the people must contribute the sinews of war if they expect to win the great battle.

Now and then you see a poor old worn-out mule or horse, sometimes a cripple, being worked to a wagon, hardly able to pull the vehicle, yet there is no one to interfere in behalf of the poor dumb and suffering beast in Orlando.—Orlando Sentinel. The same situation exists in Gainesville and Alachua county, and it is indeed strange that some humanitarian does not organize a society for the prevention of cruelty to animals. Who will take the initiative in this work in Gainesville? The poor dumb animals may not be able to thank you themselves, but you will do a noble work for which you will be rewarded in the hereafter.

If you want to sell that piece of real estate there is no better way to do so than through the use of a want ad. in The Sun.
